

SkeleKey Web Quick Start

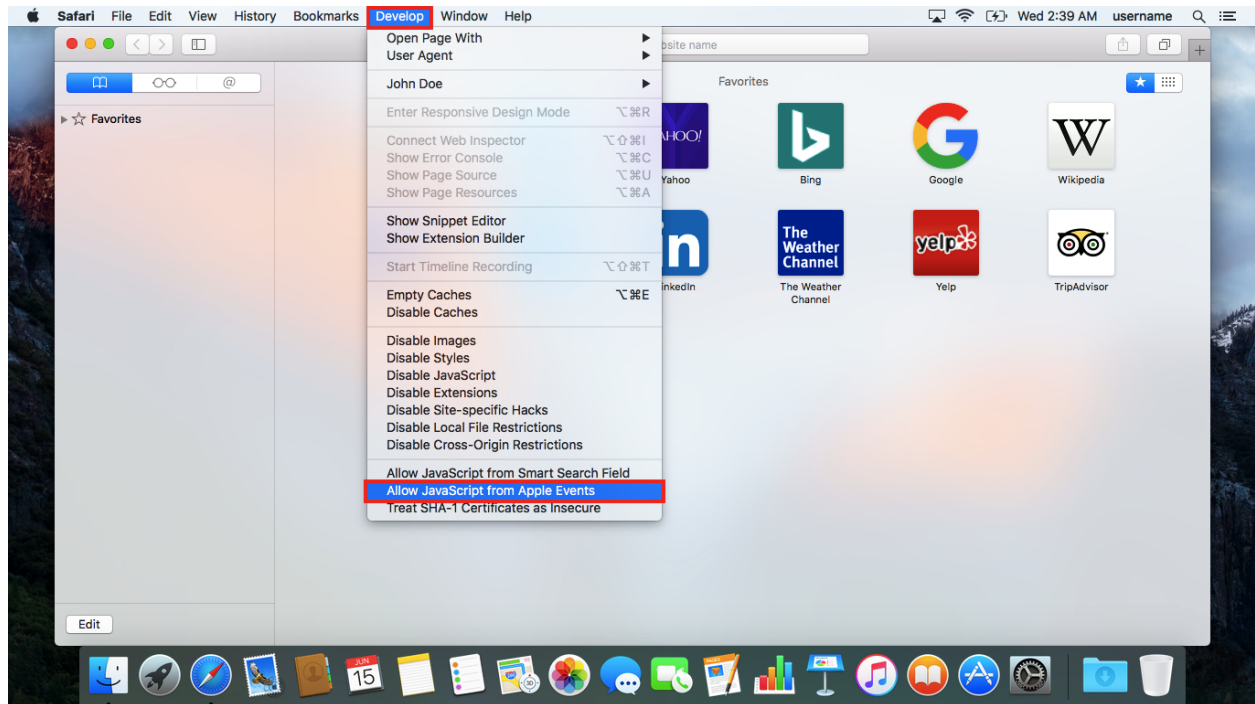

Step 1:

Open Safari Preferences, select “Advanced”, and make sure that the box “Show Develop menu in menu bar” *is checked*.

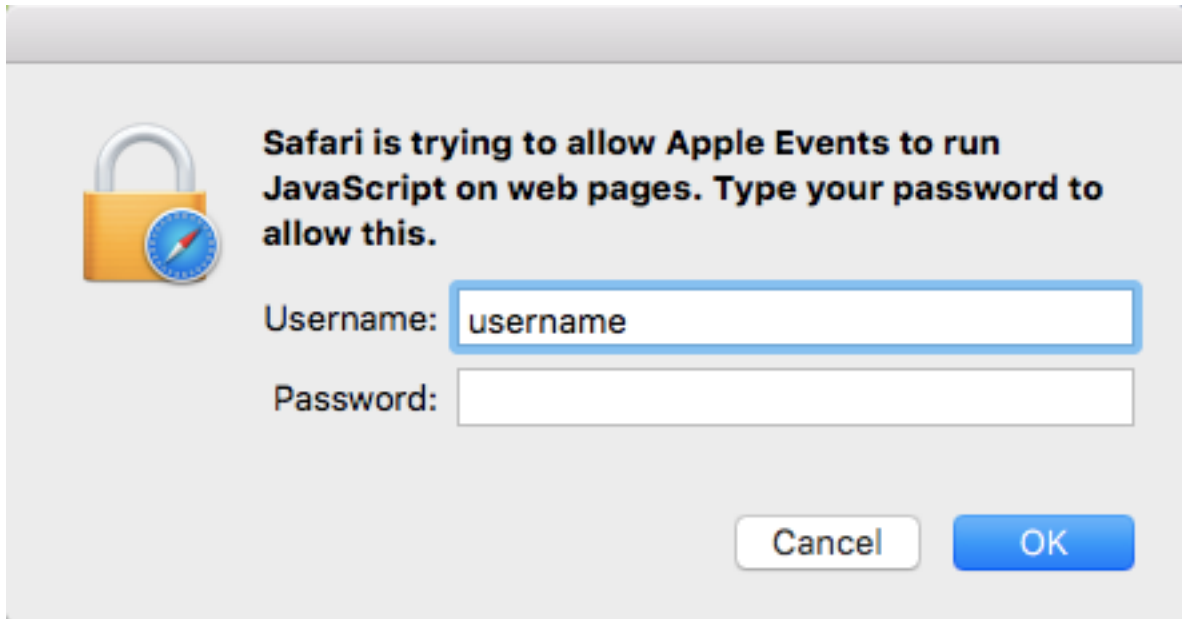

Step 2:

Open the “Develop” bar in the menu bar and select “Allow JavaScript from Apple Events.” After selecting this option, a check mark will appear next to it.

Step 3:

Type in your local computer password

Now your computer is ready to use SkeleKey's with the Web add-on enabled!

-Thank-you from the SkeleKey Team
