# SkeleKey Web Quick Start

Step 1:

Open Safari preferences, select "Advanced", and check "Show Develop menu in menu bar."
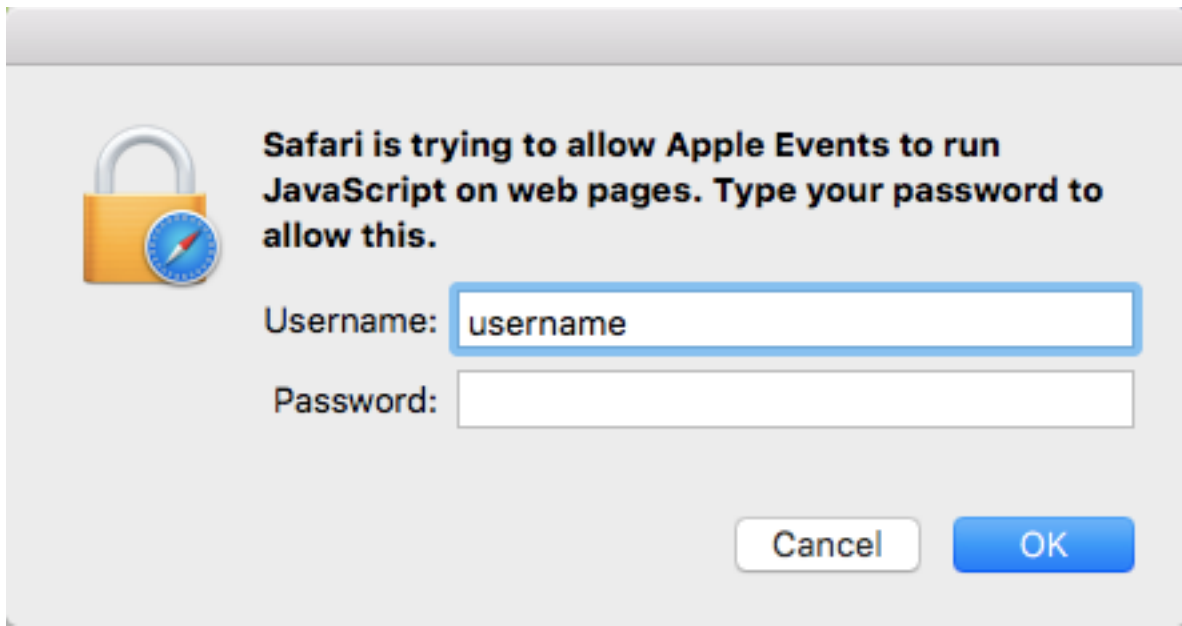

Step 2:

Open the "Develop" bar in the menu bar and select "Allow JavaScript from Apple Events."

Step 3:

Type in your password.

Safari is trying to allow Apple Events to run JavaScript on web pages. Type your password to allow this.

Username: username

Password:

Cancel   OK

Now your computer is ready to use SkeleKey web support!

-Thank-you from the SkeleKey Team
